

Ez2[®] Rotary Action File Rotary Storage Solution

Ez2[®] Rotary Action File

A revolution in high-density file storage

Ez2[®] Rotary Action File by Datum Storage Solutions is a user-friendly, rotating storage system that maximizes available space for storing files, books, office products, medical supplies, weapons, equipment, and more. Its efficient design features shelves that spin 360 degrees and are accessible on both sides to increase productivity. Storage can be configured in the front and back of each unit, providing twice the storage space within the footprint of a single storage unit.

No Foot Pedal Makes It Safer and Easier to Use
The Ez2[®] Rotary Action File does not require a foot pedal, which reduces its footprint and protects the safety of personnel by eliminating trip hazards. The elimination of the foot pedal also simplifies access to stored item, as each rotating unit spins easily and with minimal effort.

FEATURES & BENEFITS

- 360-degree rotating storage unit
- Double-sided storage access
- 2 to 8 shelf openings
- Adjustable shelves on 1/2" centers
- Locking or non-locking doors and drawers
- 4 lockable positions for rotating storage
- Install freestanding (double-sided access) or in-wall (single-sided access)

ORGANIZING STORAGE & SPACE

The enclosed, cabinet-in-cabinet construction of the Ez2® makes it a versatile storage tool that can also function as a room divider to organize space and workflow. Place the Ez2 with double-sided access between two work areas, or when square footage for storage is limited and two-sided access isn't needed, install the Ez2 in-wall and completely out of the way.

CONFIGURATIONS

Available widths (in.):

- Letter 36 1/2 (starter) with 30 3/4 (adder)
- Legal 45 1/2 (starter) with 38 3/4 (adder)
